Plum

This newly released self-fertile, yellow-fleshed Japanese plum is exceptionally sweet and juicy, with a distinctive shape. Mid-season maturity.

Skin: Yellow, with a red blush developing at maturity on exposed fruit when left to hang. Can have a light bloom on the fruit.

Flesh: Pale yellow. Juicy. Firm.

Flavour: Very good, sweet if allowed to mature on the tree.

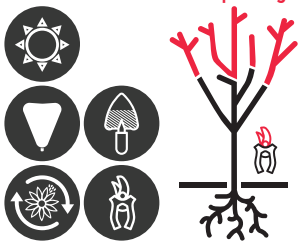
Culture: Suitable for cool temperate zones of Australia with cool winters.

Size: Standard Fruit Tree.

Care: For more information on planting, maintenance, and care visit **flemings.com.au**

PBR Ⓟ Australia Unauthorised commercial propagation or sale, conditioning, export, import or stocking of propagating material of this variety is an infringement under the *Plant Breeder's Rights Act* 1994

Bare-root pruning:



Prune each limb by 50% just above a bud.
