Gleditsia triacanthos var. *inermis* 'Sunburst'

HONEY-LOCUST

Don't strangle your tree. Please remove label and tie, and file label for reference. Illustrations and notes intended as a guide only. Estimated size at 20 years.

HONEY-LOCUST

Gleditsia triacanthos var. *inermis* 'Sunburst'

An attractive and tough shade tree with a semi-weeping habit and golden new foliage creating a soft effect. *G.* 'Sunburst' is suitable for streets, car parks and gardens.

Foliage: Yellowish-green bipinnate leaves, turning yellow in autumn. The new growth on the tips of the branches is golden-yellow.

Flowers: Inconspicuous.

Fruit: Occasional reddish-brown twisted legumes.

Culture: As with all large trees, requires adequate space for root development. Can tolerate urban sites, air pollution, moderately saline soils, low levels of drought and occasional wetness.

Size: 8 x 8 metres.

Care: For more information on planting, maintenance and care visit flemings.com.au

Prune each limb by 50% just above a bud. Remove all broken or unwanted limbs.
