

For the last 26 years, Tim Sprague and Stephen Lloyd have been designing and constructing innovative, luxury outdoor living areas for discerning clients in Melbourne and the Mornington Peninsula. Kiama has expanded over the years to include a team of highly trained professional landscapers who follow a simple philosophy:

*"Employ and train the best people, ensure excellent quality of work and provide outstanding customer service every time".*

It is this philosophy that has ensured Kiama's continuing success and exceptional 'word of mouth' reputation.

Kiama Landscapes & Paving is a member of The Landscape Industries Association of Victoria (LIAV). This is the peak professional landscaping body in Victoria and is dedicated to promoting the highest standards of quality in landscaping. As an LIAV member, Kiama's clients can be assured of peace of mind, a high standard of quality work and professional customer service. The membership with the LIAV also ensures that Kiama keeps up to date with training and information sessions on new technologies, products and materials, construction methods and government and industry regulations.

Their current team of 12 staff is known for its professionalism, a trait that is often not associated with tradespeople. All staff are renowned for their clean, tidy uniforms and for always leaving properties immaculate at the end of each day. Additionally, neighbours of Kiama's clients are always delighted with the gift that they receive from Kiama- a small package with a note saying who they are and apologizing for any noise that might occur while they are working.

Kiama were rewarded for their work in 2003 and 2006, where they collected prestigious LIAV awards.

### **Services**

Kiama Landscapes & Paving Pty Ltd provides a total design and construction service for all aspects of residential and commercial landscaping. Kiama works closely with its clients from initial consultation, through to concept development, construction and completion to ensure an outstanding result every time.

Paving, water features, decking and pergolas, outdoor lighting, irrigation systems, feature stone walls, swimming pool landscapes and timber screens are just some of what Kiama can provide for their clients.
