Local company supports Australian Garden at Chelsea Flower Show

For the fourth consecutive year the Australian horticulture industry will be represented at the Chelsea Flower Show in 2007. This years design, "Fleming's and Trailfinders Australian Garden", will benefit from the additional support of local Monbulk business Murphy's Mitre 10.

This years Chelsea design, by Melbourne based designer Mark Browning is set to wow visitors with an impressive pergola, incorporating light boxes and fish tanks, bluestone paving and spectacular plantings of trees and shrubs. The challenge of bringing the garden life will fall to the crew from Kiama Landscapes and Paving. For the landscapers this will be a once in a lifetime opportunity to compete at the horticultural Olympics and to showcase their talents on the world stage.

All of the materials needed to construct the garden will be transported from Monbulk to London. This week three shipping containers are set to leave from Fleming's Nurseries the six week journey. The containers will be loaded with everything from custom made sculptures and fish tanks to mulch products from Van Schaik's BioGro in Montrose as well as nails, hammers, paint brushes, safety equipment and power tools all supplied by Murphy's Mitre 10.

Paul Murphy, owner of Murphy's Mitre 10 says, "We're delighted at Murphy's to be involved in this quest for a Gold Medal at the Chelsea Flower show. It really is a fantastic example of Aussie know-how."

Full details of the garden and the construction progress can be viewed at www.flemings.com.au/chelsea2007.
