

Chelsea Flower Show 2007

Have your very own
New Release DVD!

In this bright and informative DVD, Fleming's and Trailfinders Australian Garden unfolds before your eyes. Photographer Martyn Rushby captured the 'ins and outs' of the 'Chelsea Experience' as our Aussie team constructed Fleming's and Trailfinders Australian Garden at Chelsea 2007.

Chelsea 2007 was an amazing experience for all involved, with personality-plus designer Mark Browning and the down to earth landscape crew from Kiama Landscapes and Paving, working together with a huge group of fantastic Australians for many long days of hard demanding work.

Follow the team through the nitty-gritty experience of building a show stopping garden at the world's most prestigious garden show and see the heart and soul that goes into constructing a Chelsea Show Garden.

In a fascinating hour you will watch as the team cope with English weather, the intricacies of bringing three shipping containers of materials all the way from Australia, cop flak over bright pink uniforms and produce one of the most striking gardens ever to be seen at Chelsea.

Narrated by our very own Wes Fleming together with Mark Browning, the owners of Kiama Landscapes and Paving Tim Sprague and Steve Lloyd as well as project manager Scott Wynd of TLC, this has got to be one of the most ideal gift ideas for the gardener in your life.

Only \$22.15 inc. GST and postage.
