

'You've Just Gotta See This'

RHS Chelsea Flower Show 2009

Subscribers to the Insider @ Fleming's are the first to hear the news that we have chosen a designer for our 2009 entry to the Chelsea Flower Show in London.

Scott Wynd of **TLC** (Total Landscape and Construction) has designed a stunning outdoor lifestyle garden that incorporates all of the luxuries that we would all love to have in our gardens - swimming pool, spa, kitchen and lounge area. Of course a garden is not complete without plants, so all of this is set within a dense, almost jungle-like planting.

Scott has an exceptional record both designing and constructing gardens at Flower Shows. Scott has project managed the construction of the gardens in the Fleming's Student Design Competition for the past 8 years, has designed show gardens for display at Sydney in Bloom and the Melbourne International Flower and Garden Show and has been involved in constructing the last four Australian Gardens at Chelsea.

We are really excited to have Scott on board and we are confident that 2009 will be another Golden year for Australian's at Chelsea.
