IMMEDIATE RELEASE

FLEMING'S F2 RANGE HERALDS 'THE FUTURE OF FRUIT'

Australia's leading grower of fruit and ornamental trees, Fleming's Nurseries, is delighted to reveal the future of fruit with the launch of 'F2' a selection of cross-variety fruit trees.

Bred by natural hand pollination, Fleming's F2 collection include five new fruits derived from apricot crossed with plum, nectarine crossed with plum, and plum crossed with apricot.

Also known as 'interspecific' fruit, the dominant fruit is listed first with characteristics of the cross fruit bringing the best of both fruits for sweet, tasty and attractive fruit that is better than ever before.

The collection currently includes;

'Cot N Candy' (PBR) Apricot x Plum
'Spicezee' – Nectarine x Plum
'Flavor Rouge' (PBR) – Plum x Apricot
'Flavor Supreme' (PBR) – Plum x Apricot
'Marcia's Flavor' (PBR) – Plum x Apricot

Ideal for home gardens, the fruit varieties have been paired to maximise flavour and sweetness and are ideal for eating fresh, cooking and jamming as normal.

'Cot N Candy' (PBR) Apricot x Plum – produces a very 'apricot' looking fruit with a smooth rather than furry skin and pale coloured, very sweet plum-like textures flesh.

'Spicezee' Nectarine x Plum – A rustic looking nectarine style fruit with sweet, crisp pale green to white flesh is produced on a nectarine-style tree featuring new foliage that is purple.

'Flavor Rouge' (PBR) Plum x Apricot – Very sweet and juicy plum style fruit is enhanced by the sweetness of apricot undertones.

'Flavor Supreme' (PBR) – Plum x Apricot – Large round dark plum-style fruit is produced with enhanced sweetness from the apricot influence.

'Marcia's Flavor' (PBR) – Plum x Apricot – Deep purple fruits are produced offering the initial tartness of a plum skin giving way to a very sweet flesh with undertones of apricot.
