

## Fleming's Nurseries Movember Challenge.

Members of the Fleming's Nurseries 'Mo Bro' team have found themselves diligent groomers of a hairy situation. Although highly personal, these blokes have been willing to share their situation with all of us here at Fleming's. Their challenge to grow the perfect Movember moustache to help raise funds for Beyond Blue and Prostate Cancer research has proven to be a very itchy, scratchy, hairy, prickly, patchy and according to partners, tickly experience.

Our Mo Bro's raised \$500 with Fleming's Nurseries proudly matching their efforts dollar for dollar reaching a sensational \$1,000 for the cause.

Well done to our Mo Bro's Team.

Pictured at right the only ones we could find this morning, the others are out growing those wonderful plants we're all so proud of. Congratulations to all for a fun and hairy time.
