**avenue trees**

**purple foliage**

**coastal trees**

**weeping trees**

**fruiting trees**

**wes fleming's favourites**

**[www.flemings.com.au](http://www.flemings.com.au)**

**Social benefits**

**Economic benefits**

**Lifestyle benefits**

**Environmental benefits**

*Now, more than ever*, people are aware of the benefits of trees; they *want* to plant trees but are often confused by the process of choosing the right tree. So in our endeavours to help improve our urban environment and to demystify tree selection Fleming's Nurseries the Tree Experts have created their **Top 10 Trees**.

**Fleming's Top 10 Trees** groups trees into ranges to suit any garden or specification. This makes it simple for anyone to make an informed decision before they visit their nursery or garden centre, and gives people ownership of the decision making process, so their gardens and landscapes can truly become something of their own creation.

**Fleming's Top 10 Trees** is a great resource for home gardeners, as well as being a great asset for nursery staff, landscapers, designers ... in fact, anyone involved in our wonderful horticultural industry - it's the on-line tree consultant!

**Fleming's Top 10 Trees** can be conveniently accessed on-line at [www.flemings.com.au/homegarden/topten\\_intro.asp](http://www.flemings.com.au/homegarden/topten_intro.asp)
